PROFILE

My name is Karthikeya. I specialize in developing seamless user experiences from front-end to back-end. I focus on building robust APIs and scalable databases. I also ensure responsive design and efficient server-side logic, with a focus on performance and security.

PROJECTS

Food Delivery Web Application

- Built a scalable food delivery platform using Next.js and Node.js with secure authentication, restaurant listings, cart functionality, online payments, and real-time order tracking. Implemented REST APIs, optimized performance with server-side rendering, and designed a fully responsive UI using Tailwind CSS.

AI Tools Directory Website

- Developed an SEO-optimized AI tools directory using Next.js and Supabase, featuring dynamic routing, advanced search and filtering, and secure authentication. Integrated AI APIs for automated content generation and deployed the application on Vercel for high performance and scalability.

Free Converter Tools Website

- Created a high-performance multi-tool web platform using Next.js that provides free online converters with fast client-side and server-side processing. Focused on reusable components, SEO optimization, and responsive design for a smooth user experience
